

VILLA PLANNING TO MOVE ON CITY

Is Prepared to Advance on
Chihuahua This
Morning.

TRAINS ARE LOADED

Rumor Is that Federal Forces Will
Surrender to U. S. Military
Authorities.

Juarez, Dec. 2.—A peace commission hearing terms of surrender from seven federal generals in Northern Mexico arrived in Juarez tonight. The proposition will be laid before Gen. Villa in the morning.

El Paso, Tex., Dec. 2.—Gen. Villa and his staff will leave Juarez early Wednesday to occupy the city of Chihuahua, which was evacuated Sunday by Gov. Salvador Mercado and the federal forces.

"I will leave for Chihuahua in the morning," said Gen. Villa. "My trains are already loaded, and we will occupy the state capital just as soon as our trains can carry us there."

"I have plenty of ammunition and men and it is only a matter of giving the federalists battle before the entire Huerta rule will be eliminated from the state."

"I will not make any arrangements for the establishing of the state government of Chihuahua until I reach there, but will continue my military operations. The establishment of the state government will not be made until Gen. Carranza arrives at Juarez, from Sonora. I expect him to come to Juarez at once, and have issued orders to the commander of the Huerta to accord him every facility for establishing his cabinet, either in Juarez or in Chihuahua, as he may elect."

May Surrender to United States.

The vanguard of Gen. Villa's forces, which is commanded by Gen. Rosendo Hernandez and Maximiliano Hernandez, is moving to the south towards Chihuahua, but will not enter the city until Gen. Villa and his forces arrive.

It is rumored that the entire federal forces intend to surrender to the Huerta military authorities when they reach the border. In case they do they will be taken to San Antonio, Tex.

The federal column, en route to Ojinaga, is said to be carrying a large sum of money from the Chihuahua banks and from the private treasury of Gen. Luis Terrazas.

Estimates of the sum placed at \$1,000,000 gold, but Gen. Villa laughed at these figures, and says there is not that much in the whole state of Chihuahua, except in form of fiat currency.

MEXICAN FEATURE OF PRESIDENT'S MESSAGE SENT TO FOREIGN HEADS

Through American diplomatic representatives abroad, that portion of President Wilson's message to Congress referring to relations with Mexico yesterday was transmitted to all foreign governments represented at Mexico City.

This was done in accordance with the policy of President Wilson of keeping all the other governments informed of the important acts or announcements of this government with respect to Mexico. It is not expected that there will be any comment from any other government on the President's statements.

Nelson O'Roughness, charge d'affaires of the Embassy in Mexico City, received yesterday a copy of the President's statement, and it is presumed that by this time officials of the Huerta government have read it.

The Mexican situation received no attention at the State Department yesterday. It was said that the day of the numerous details of a routine nature which daily arise. Interest centered in the pronouncements of the President on the subject, in his message to Congress, but the message, when made known, was not regarded as having added anything to the general knowledge or understanding of the situation.

Advices to the department stated that newspapers at Saltillo are still featuring news of the "negro revolt" in the United States. An extra was issued on Sunday, to inform the people that eleven states were now involved and that much destruction of property had resulted. These statements are what American newspapers for three years have been printing about conditions in Mexico.

Telegraphic communication between Mexico City and Saltillo has been resumed. Many wounded federalists have been brought to Saltillo from the south. The federalists claim to have won a victory at Victoria, and have occupied the town of Tarras.

FEDERALS TO RE-ENFORCE GARRISON AT MONTEREY

Laredo, Tex., Dec. 2.—Gen. Teller, military governor of Nuevo Leon, and military commander of the Northern division of Mexico, is reported to have issued an order calling in all detachments of federal troops for the reinforcement of the Monterey garrison.

According to rumor the rebels plan an attack on the city tomorrow or Thursday. Saltillo is to be attacked at the same time. The inhabitants of Nuevo Laredo are also in great fear of an attack on that city.

RUMOR PERSISTS THAT TUXPAN IS CAPTURED

Special to The Washington Herald.

Mexico City, Dec. 2.—A story circulated today, which probably will be published tomorrow in the government organs, is to the effect that Sir Christopher Crackwell assured President Huerta that Great Britain will always be with Mexico, no matter what may happen. It was learned that no such statement was made by Sir Christopher, nor was anything approaching political mentioned during the visits made by the British admiral to Madero, Blanquet, and Huerta.

Tuxpan Falls to Rebels.

The rumor is persistent that Tuxpan has been captured by the rebels. It has been impossible, however, to get authoritative confirmation or denial. The report of the capture of Matatlan is equally persistent. Advices from Saltillo

say the city is in imminent danger of attack.

The Chamber of Deputies this afternoon debated a measure, providing for a bond issue of \$5,000,000 pesos. The bill, which is favored by the executive, is certain to pass. It is expected that this loan can be floated at home by means of moral pressure brought to bear on wealthy citizens. The treasury funds are getting very low, and the administration is becoming desperate.

Two railway stations between Victoria and Tampico were burned today by rebels.

RECH HETCHY BILL OPPOSED.

Senator Works Says Many San Francisco Are Against Measure.

Senator Works yesterday addressed the Senate in opposition to the Hetch Hetchy bill, providing a water supply for San Francisco.

Senator Works declared the city of San Francisco has no right under the laws of California to appropriate flood waters for the use of adjacent cities. He said an examination of appropriations of water would show that San Francisco has no right whatever to all of the \$400,000 gallons of water reserved to its use under the terms of the pending reservoir site bill. He declared that support of the bill was being handled from a common center, and did not represent the wishes of all the people of San Francisco. He was frequently interrupted by Senator Thomas and other Democrats who are in favor of the bill as it stands.

Senator McCumber introduced a substitute for the Hetch Hetchy bill. It differs from the original bill chiefly in that, while recognizing the rights of prior appropriators of water, it does not compel the city of San Francisco to supply them with any specified amount of water.

EARLY SESSION VOTE AGAIN IS POSTPONED

Kern Resolution Goes Over, Owing to
Joint Meeting—Norris Asks
Currency Decision.

Another unsuccessful effort yesterday was made by the Democratic leaders in the Senate to put through the resolution introduced by Senator Kern, providing for daily sessions of the Senate, to begin at 10 o'clock in the morning and to last until 11 at night, with an intermission of two hours for dinner.

The Senate finally abandoned the debate and marched over to the House to hear the President's message.

The Republicans came into the Senate chamber fresh from a party conference, at which they had agreed to resist the new order, but not to filibuster and keep Senators on guard on the Republican side to see that the bill was not put on its final passage during a temporary absence of Republican Senators.

A feature of the discussion was an amendment offered by Senator Norris, of Nebraska, to take a vote on the currency bill not later than December 20. This was promptly voted down, after Senator Gallagher had denounced it as a move in the direction of closure.

Senator Norris admitted that he was attempting to smash the ancient tradition of the Senate against shutting off debate.

Chairman Owen served notice on the Senate that unless a vote was taken by December 15, there would be but one day in the holiday recess, and that would be Christmas Day.

After returning to the Senate from hearing the President's message read, the Democratic leaders agreed that the Kern resolution should go over until today.

"SPUGS" TO MEET TODAY.

Movement to Prevent Unlawful Giving to Be Launched Here.

Mrs. Champ Clark, Miss Margaret Wilson, daughter of the President, and other prominent women will participate in the meeting at which the "spugs" movement will be launched at Woodward & Lothrop's Hall this morning. It is the plan of those interested to have Mrs. August Belmont, Miss Anne Morgan, and Gertrude Robinson-Smith explain the purposes of the Society for the Prevention of Unlawful Giving, the members of which call themselves "spugs."

The hall in Woodward & Lothrop's department store will be the meeting place for the meeting, which these women are interested to have this hall filled for the meeting with many of the leading social and civic workers of the District and thus set the movement on a firm footing at once.

UNION LEADERS TRY TO END BIG STRIKE

Submit Proposition to Teamsters of
Indianapolis—One Man
Killed in Riot.

Indianapolis, Dec. 2.—Following a number of clashes between police and striking teamsters and chauffeurs and their sympathizers today, during which one man was killed and five wounded, the Central Labor Union submitted a proposition to the strikers looking toward an early resumption of business.

The proposition was that if owners employing 1,500 men were found willing to pay the union scale, these men should return to work, the employees of owners unwilling to pay the scale to the men remaining on strike. The strikers have taken no action on the proposition as yet.

In an effort to prevent further trouble, Mayor Harry Wallace today issued an order prohibiting public demonstrations. Loitering is also prohibited. Henry Friedman, a prominent labor leader, was arrested this afternoon on charges of intoxication and inciting a riot. Hundreds of wagons owned by downtown business houses, and guarded by heavily armed employees, who had been sworn in as special policemen, were driven through the streets today.

HOUSE DOORKEEPER FAILS TO RECOGNIZE SECRETARY OF STATE

Mr. Bryan Has Difficulty in Being Admitted to Hear Reading of the President's Message.

William J. Bryan has been a candidate for the Presidency three times, and he now occupies the distinguished office of Secretary of State. Nevertheless, he was unknown to a Democratic doorkeeper employed in the Capitol.

Mr. Bryan came to the Capitol to hear President Wilson read his annual message. He was denied admission to the gallery floor, and had to start for his seat, when a doorkeeper demanded his credentials.

The Secretary of State smiled, and was about to explain his way when the doorkeeper made it plain that unless he could show that he had a right to a seat that he would have to be off. Bryan identified the Secretary of State, the doorkeeper mumbled an apology, and Mr. Bryan passed on.

CONGRESSMEN HIT AGAIN.

Taxes on Their Incomes Will Be Collected "At the Source."

It is pretty tough to be a member of Congress these days. It was hard enough when it became known recently that there would be no mileage appropriation at this session, but now the exigencies of the public welfare require Congress to cut out the Christmas recess.

The crowning indignity though was thrust upon members yesterday when it was learned that the disallowing officers of Congress hold that under the income tax law the tax to be paid by statesmen will be "collected at the source."

In other words it will be deducted from members' compensation before they are paid off.

Boy Dies of Hydrophobia.

After an investigation into the death of William Albert Schum, four-year-old son of Daniel A. Schum, which occurred at his home, 2227 Webster street northwest, last Thursday, Dr. John L. Norris, assistant health officer, yesterday reported that hydrophobia was the cause. On November 2, the boy was bitten on the nose by a dog while visiting at the home of J. B. Hollman, near Luna Park, Va.

New Home for the Moose.

Columbia Lodge, No. 125, Loyal Order of Moose, at a meeting last night, completed arrangements for a home on the second and third floors of 425 Thirtieth street northwest. The membership is now more than 500.

In an endeavor to increase the rice production of the Philippines the insular government is colonizing fertile but thinly inhabited valleys with natives taken from less fertile but more densely populated localities.

MY, HOW TIMES CHANGE!

Members of Congress Find Copies of "Address" on Desks.

Members of Congress realized yesterday that times have changed, when they filed into the House chamber and picked up copies of the annual address that President Wilson was about to deliver to Congress. A copy was lying on each member's desk.

From the time when they first began to print such documents in pamphlet form, they have been headed, "A Message by the President of the United States." The State paper yesterday, however, bore this caption:

"Address of the President of the United States."

President Wilson's friends immediately saw in the change evidence of the President's nice discrimination in the use of words. He has contended that the document is not a message but an address, and should be characterized as such.

WRIGLEY'S SPEARMINT

Commercial Club Takes Possession of
New Home at that Time.

The formal opening of the new Commercial clubhouse in Farragut Square, will be held December 10, when directors and officers of the Army and Navy Club, the Cosmos, and other clubs will be present. The committee in charge of arrangements for the opening is composed of Cuno Rudolph, president of the Board of Trade, and D. J. Callahan, president of the Chamber of Commerce.

The site of the clubhouse was purchased early in the fall for \$100,000. Since that time the building has been extensively remodeled. The Commercial Club had its inception four years ago, at which time it had 100 members. Since that time the membership has climbed to 500.

BANDITS KILL CASHIER; ROB BANK OF \$5,000

Detectives Leave Los Angeles to Pursue Band that Looted California Institution.

Los Angeles, Dec. 2.—After shooting and killing the cashier of the Palo Verde Valley Bank, at Blythe, this afternoon, bandits robbed the vaults of the bank of \$5,000 and escaped. Detectives left Los Angeles hurriedly tonight for the scene of the robbery.

Blythe is situated on the Colorado River, in the extreme east end of Riverside County, and is some distance from a telegraph office.

"INSIDE FUN" PLANNED.

New Members of Congress Will Tell How It Feels.

Another evening of "inside fun" is announced for tomorrow night at the National Press Club. Six new members of the House are going to tell members of the club and their guests "How it feels to be a brand new Congressman."

These selections include Representative "Jerry" Donovan, of Connecticut, one of the most persistent "insurgers" on the Democratic side, and "Alfalfa Bill" Murray, of Oklahoma, a fire-eating radical who is liable to take a kick at the party did upon the slightest provocation.

One member of the House District Committee, Representative Winthrop of Worcester, Mass., is on the list. W. L. Chandler, a Bull Moose, and Albert Johnson, of the State of Washington, and formerly a newspaper man of this city, also are on the all-star bill. The sixth man has not been announced.

WRIGLEY'S SPEARMINT

CAUTION!

The great popularity of the clean, pure, healthful WRIGLEY'S SPEARMINT is causing unscrupulous persons to wrap rank imitations that are not even real chewing gum so they resemble genuine WRIGLEY'S. The better class of stores will not try to fool you with these imitations. They will be offered to you principally by street fakirs, peddlers and the candy departments of some 5 and 10 cent stores. These rank imitations cost dealers one cent a package or even less and are sold to careless people for almost any price.

If you want Wrigley's look before you buy. Get what you pay for.

Be SURE it's WRIGLEY'S

We are inserting the above caution solely to protect our customers, who are constantly victimized by the fact that they have been deceived by imitations which they purchased thinking they were WRIGLEY'S.

INDIANS' RIGHTS DISCUSSED.

F. H. Abbott Suggests Safeguarding of Native's Property.

F. H. Abbott, secretary of the Board of Indian Commissioners, spoke last night at a meeting of the Washington Society of Engineers, held at the hall of the Chesapeake and Potomac Telephone Company, 722 Twelfth street northwest.

"Some needs of Indian irrigation" was the subject of the address. Mr. Abbott said Indians should be organized into societies such as the Water Users' Association, so that they would feel a sense of responsibility in their lands and would appreciate the value of their water rights and the benefits received from irrigation of their lands.

Charge for construction and maintenance of irrigation systems should be charged against the lands of the Indians, Mr. Abbott said. He claimed that "the rapid growth of Indian irrigation is equalled only by its complexity and the lack of uniformity in law and administration in dealing with the subject." He referred to the laws governing Indian lands as a "sort of Pandora's Box."

"NAVAL HOLIDAY" DEBATED.

Hobson, of Alabama, Speaks Against English Statesman's Proposal.

Three hours' debate yesterday was given to the House by the resolution offered by Representative Hendrick, of Missouri, proposing an increment of the suggestion of Winston Churchill, British Lord of the Admiralty, that the powers shall cease naval construction for a year as a measure of economy. The debate was prolonged by Representative Hobson, of Alabama, who insisted that this government required a big navy in order to enforce respect for the United States in time of emergency.

Mr. Hobson disapproved of the Churchill "naval holiday," declaring that this government owed it to her own interests to uphold the navy without regard to the plans of other nations. Sentiment in the House seemed to favor the resolution.

The "small navy members" favor it, as do leaders who believe that Congress should retrench all along the line at this season. These leaders are of the opinion that if the Hendrick resolution is adopted, as now seems probable, that it will help to defeat the two-battleship program advocated by the administration.

BRAND WHITLOCK PLACED.

Toledo Man Gets Brussels Post, While Williams Goes to Greece.

President Wilson yesterday sent to the Senate the nomination of Brand Whitlock, of Toledo, Ohio, to be Minister to Belgium, and George Fred Williams, of Boston, Mass., to be Minister to Greece and Montenegro.

Grafton D. Little, of California, was named to be receiver of public money at Eureka, Cal.

The President renominated Henry M. Findell, of Illinois, to be Ambassador to Russia, and Winifred T. Denison, of New York, to be a member of the Philippine Commission. Findell and Denison were appointed during the special session, but failed of confirmation.

Think Reeluse Murders Victim.

Wellburg, W. Va., Dec. 2.—George Money, eighteen-year-old, recluse, was found shot to death today in his home in Ebener, where he lived alone. The room was in disorder, and the Reeluse County authorities believe Money was murdered. He was reported to keep a big sum of money in his home.
